## 12 Injured In Holiday Traffic Accidents

Area Observes 3-Day Observance With Below Normal Injury Rate

The Quad-City area marked a low holiday weekend with a below-normal number of traffic accidents, although thousands of motorists were attracted to jam-packed highways to enjoy sunny skies and moderate temperatures.

In the 28 accidents reported in the Quad-Cities since Friday, 12 persons were injured. No traffic fatalities were recorded in the area.

Highways and streets throughout the area were jammed at intervals during the three-day Memorial Day holiday as motorists drove to and from recreational events and weekend visits. Parks were crowded with picnickers. Temperatures on the east side kept many persons from swimming pools.

The number of persons leaving the area on weekend trips was high, but many residents took advantage of the three-day vacation to paint and repair and work around their homes. While traffic injury cases were at a minimum in this area, such was not the case throughout the nation where 527 persons died in traffic accidents over the holidays. The fatality list set a new national record, outstripping last year's death list by more than 60.

**Troopers Out In Force**  
Capt. Joe Kascic of the Granite City police department commented that the number of accidents was less than experienced on most normal weekdays. State police had all available troopers on duty throughout the area. Two troopers directed traffic Friday evening at old Route 66 and Interstate 3 near the Route 270 interchange.

She was taken by ambulance for treatment of left arm and left knee abrasions at St. Elizabeth hospital and was admitted. Wilkinson was charged with careless driving and was summoned for a hearing by June 10.

## GC-State Agreement On Rte. 151 Approved

Council is Unanimous; City to Erect Fencing In Dangerous Areas

Complete and full accord on the agreement with the state highway department for construction of Route 151 through Granite City was reached by city council members Thursday night.

Council approval (11-2) also was given construction of fencing along the limited access roadway in the residential areas of West Granite and Lincoln Place as a safety feature.

The city's engineer was authorized to prepare the plans, to call for bids. The fence installation is to be financed with city sales tax funds and is to be carried out by the Granite City Public Works Department. Great River Road is constructed in Granite City.

Approval of the agreement was unanimous by the 13 aldermen present. Those absent were Aldermen Whitmer, Thompson and Boyd. The proposal had been tabled by an 11-4 vote at the May 16 meeting.

**Extra Agreement**  
Included in the agreement were the terms negotiated for a frontage road early last week by Highway District Engineer Robert Kronst and officials of the Tri-Cities Chamber of Commerce and Tri-City Regional Port Authority.

Under this added agreement, it was noted, the city will save an estimated \$50,000 which would have been needed to acquire the right-of-way for the frontage-access road extending from an alley north of West 20th to Cayuga street.

The state highway department, which said it would build the frontage roadway at an estimated cost of \$22,000 to \$25,000, had earlier specified it was the city's responsibility to provide the right-of-way.

In accepting the agreement, the council instructed Mayor Partney to employ an appraiser, as stipulated by the state. Non read a report on the terms of the agreement, and the council also is to negotiate with property owners to provide right-of-way for the 22-foot frontage road.

Members briefly discussed the contract proposal during a special meeting Saturday morning and then reviewed the wording in more detail over the weekend.

Negotiating teams representing the local and the district met Sunday afternoon, and there was additional contact yesterday morning. Members of the federal team are to consider the offer tomorrow.

He went on to explain the local Army Depot now has a program to aid the families of servicemen killed in Vietnam.

**Mayor Partney Speaks**

### Ban on Closed Session Of Air Pollution Board

The Air Pollution Control Board of the state of Illinois cannot hold an executive session, closed to the public and the press, for the purpose of discussing the relationship between the board and the Illinois Department of Public Health as to the powers and duties of the two agencies under the Illinois Air Pollution Control Act, Attorney General William G. Clark has advised C. W. Klans, technical secretary of the Air Pollution Control Board.

In the ruling, Clark has held that a certificate of error is to be issued to a taxpayer to correct an error in assessment of real or personal property other than error of judgment as to valuation.

Illinois state employees must continue to take the loyalty oath until such time, if ever, as the United States or Illinois Supreme Court should overrule the case against its constitutionality.

Clark has ruled.

Major construction work is progressing satisfactorily on Paddler's Swim Club's second Olympic-sized swimming pool, Francis McBride, club president, told board members Thursday evening. Pouring the \$242-foot concrete pool is scheduled to start today, he added, with the contractor hoping to complete the work early in July.

The expansion and refurbishing project, involving the bathhouse, also is nearing completion. McBride said, with both the shower rooms and concession stand entirely functional. The new checking facility will be finished within the next two weeks. The pool opened its season Saturday.

Keith Parker, pool manager, announced that swimming classes for members and non-members will begin June 12, with youngsters to register at the Paddler office. He said a new three-meter diving stand has been installed.

New members accepted include Watson Mercer, Thomas Gipsen, Donald Robertson, Donald Gauen, Ed Hendrickson, Paul Ganz, Ralph Reader, William Bellinger, Herchel Crawford and Dr. E. Gale Jones. Mrs. Mary Earls, membership chairman, reported that a few summer memberships still are available.

Other directors present were Mickey Loftus, Homer Johnson, Mike Voyne, Durbin, Andrew Gitchoff, Joseph Barbieri, Louis Blasson, Mrs. Jean Beatty, Mrs. Mary Jesse, Albert Malottki, Eynon Dunn and advisory board member, Edwin Hoff.

## Officers Dispute Over Pair in Jail

A four and a half hour telephone dispute between the Madison police department and the office of Sheriff Barney Fraundorf, over police and prisoner transfer occurred Thursday night.

The incident involved two men who were to be transferred from Madison to the county jail and ended at 10:25 p.m. Thursday when Madison Police Chief Emmett Pizia and Lt. Frank Dutko took the prisoners to the county jail themselves. Thirty minutes later, the two prisoners were released on cash bonds of \$250 each to appear for hearing Wednesday at 3:30 p.m.

Involved in the transfer were Jimmie Taylor, 29, and Clarence A. Jones, 28, both of St. Louis who were arrested by Madison police at 5:15 p.m. last Tuesday as they fled from a Madison TV store. Taylor with \$231 taken from the cash register and Jones with a \$125 portable radio.

Thursday night, Pizia charged that the sheriff's office had refused to pick up the two men for transfer to the county jail. Pizia said both men were lawfully in custody because of a withdrawal from use of narcotics and "were ready to climb the walls." He said he believed they should have been in the county jail from which they could be transferred to the hospital through authority held only by the sheriff.

Fraundorf responded Friday morning with a statement that illness among prisoners is a responsibility of the city police if the prisoners are held in the city jail at the time they become ill. Fraundorf said the men weren't seriously ill and that both of them "were in good spirits and in health" when they were released on bail. The sheriff added that both prisoners at the time they were brought to the jail by Pizia and Dutko, "walked into the jail under their own power without any difficulty."

Records show that the sheriff's office received its first call from the Madison jail at 5:50 p.m. Thursday asking that the two prisoners be picked up sometime that night. The sheriff's dispatcher told Madison police the pickup would be made Friday morning because such pickups were made by day deputies and not by night riders.

At the time, the sheriff's report said, there was no mention of the health of the two men. At 8:50 p.m., the sheriff's report added, Pizia called and said one of the prisoners was sick and should be transferred to the county jail and would give notice of the sheriff's lack of cooperation.

**Castle Fined \$200 On Reduced Charge**  
Billy Joe Castle, 22, of 2118 Missouri avenue pleaded guilty to a charge of assault, reduced from aggravated assault, and was fined \$200 and costs Thursday in the Madison county circuit court at Edwardsville.

He was charged in connection with the stabbing of Robert Cuvart, 21, of 2229 Iowa street last Dec. 28 on the Johnny Lewis tavern parking lot, Fourth and Madison avenue, Madison.

In other action, a charge of unlawful use of weapons against James Edward Stevens was dropped as he now is an inmate at the Menard state penitentiary, Chester, on a felony conviction in Cairo.

## Council Plans Special Session to Review Tentative Budget

Granite City council members, after two unsuccessful tries, held meetings earlier in the week, proceeded with a full-scale session Thursday night.

A special waiver was signed by the 10 aldermen present to make certain the meeting was legal. A wide variety of 45 items of business ranged from budget preparations to driveway permits. A special session is expected to be called this week to review the preliminary work on the budget.

Finance committee chairman Rutledge said a tentative budget should be available this week.

**Street Budget**  
Reporting on the street budget, Chairman Sternberg said the special improvement section now available to the city may reach \$200,000. He said \$48,000 was spent last year on such work. Without the special project figure, the budget for the street department presently is \$30,000 under last year's he reported.

Council members approved an ordinance dedicating a 35-foot strip of ground to widen Wabash avenue between Adams and Pontoon roads, and also a revised ordinance annexing the new junior high school site along Pontoon road.

A resolution setting the salary for new comptroller Robert Stevens was in error, it was discovered after adoption, the figure is to be corrected at a later date. The salary was specified at \$9400 a year and should have been \$9480.

**Sidewalk Opinion**  
Aldermen were advised in a letter from City Atty. Allen that new sidewalks may be constructed from general funds or through a combination of general funds and a special improvement tax against the adjacent property. Allen advised that a special assessment by itself also was permissible.

Allen also submitted an opinion that regulation of beauty schools is handled by the state and not by a city. A request had been submitted to the council by beauticians for an ordinance to set a limit of one beauty school in the city.

In other business, the council approved a request by the Navy Mothers Club to hold a sidewalk bazaar with three tables in the 1900 block of Edison avenue June 24.

Granted permission to Illinois Power Co. to excavate in alleys east and west of Missouri avenue between West 20th and West 22nd streets for installation of gas lines.

Referred to committee a request by Leonard Azorolo, 2401 Roney drive, for permission to connect onto the city sewer system. It was not acted on.

Has been refusing to permit householders outside the city to connect onto sewers.

Granted permission for William Hoelscher, chairman of the City Plan Commission to attend a Zoning Administrative Institute June 24 at the University of Illinois Chicago Circle Campus.

Placed on file a letter from the Plan Commission in which it recommended the city allocate \$1604 in the new budget to give financial assistance to Southwestern Illinois Metropolitan Area Plan Commission.

**Pontoon Beach Board Will Meet This Evening**

## Mitchell Pounds Harper 20-1; Mercer Wins 2 Over Weekend

Inter-City League baseball games over the long holiday weekend provided plenty of action and at least one surprise as Mitchell A.C. pounded previous unbeaten Blue Division leader Harper 20-1 at Jones Park.

Mercer moved into commanding position in the Blue Division by winning two games—6-3 over Troy Sunday and 7-2 over East Alton in a makeup game yesterday. Both were played at Wilson Park.

Harley-Liberty Home, leading 5-4 into the ninth in its game at Collinsville, saw Molitor pull the rug out from under them to win 8-5.

In other Sunday action, Maryville beat East St. Louis Polish American 7-6 and Peconiah won over East Alton 7-2.

In the game at Collinsville, where Don Burns homered to put Molitor out in front 1-0 in the first frame, Hearts-Liberty Home surrendered three more runs in the second. Manager Glen Gutjahr doubled, new-acquisition Tom Wyrostek reached base on an error and Don Bruce smacked a home run.

Jake Hintners homered for the Hearts in the fifth and, in the next inning, the Granite City team took the lead with a four-run attack.

Manager Ed Oplick walked, Adrian Rains also drew a base on balls. Bob Finkle doubled for two runs, and Roy Logan homered for another pair of tallies.

Molitor knotted things in his half of the ninth when Bruce led off with another home run. Doug Edwards reached base on an error and Eddie Albrecht laced a single. After Dave Hasenstab tied out, Burns socked his second home run.

Wayne Gavillet reached base on an error in the eighth and scored on another homer when Troy tried to turn Rich Branding's grounder into a double play.

Troy, with runs in the fourth, fifth and seventh innings, could never quite solve Pat Harris, who struck out eight Red Birds before being relieved in the eighth by Bruce Thompson.

In the 7-2 Monday game at Wilson Park with East Alton, Mercer allowed its opponents a run in the first and another in the second and then went out in front for good in the third.

Crabtree doubled in Gavillet, who had singled to lead off the inning. Johannmeier tripled to score Crabtree and Harlan Schiele, who had walked ahead of Crabtree's double.

Mercer added another run in the sixth when Gavillet hit a sacrifice fly with the bases loaded.

In the eighth Pat Harris tripled and scored when Ron Davis grounded out. Schiele walked and Crabtree homered as Mercer added three more runs.

## Deceptive Record Masks Warriors' Outstanding Track Accomplishments

To all but the most careful observers of high school track and field competition, the Granite City Warriors' 1966 record might be deceptive.

As Coach Jim Morrison pointed out, "We've got a great team this year, but it just seems like we haven't beaten anybody."

"As usual, the Warriors met excellent competition everywhere they went. But you really have to go back to the records of the 1966 season to see anything like the performances we've had this year," Morrison noted.

"Our second line men," he said, "are recording better times than the boys who are graduating had in their junior and sophomore years. And below the varsity level we've got the intramural junior high school champions coming along."

"Boys like Joe Bodi at Pretherton, who's jumping 19 feet and better in the long jump. Dave Mullineux at Coolidge, Bill Carter at Pratt, Jim Jones from Coolidge, Dennis McGee of Pratt, Chris Hamilton of Coolidge—all these boys," Morrison said, "will make fine track athletes."

Of the 1966 track season in particular, Morrison spoke of several outstanding performances by the squad.

The March 4 third-place finish in the Greater St. Louis indoor meet, the April 26 second-place finish in the 13-school Madison county meet and the thirteenth place in the highly competitive East St. Louis relays May 6 were some of the highlights of the year, Morrison noted.

"We were also third in the conference relays April 15 and finished fourth in the Mattoon relays April 23 when our boys broke down getting there," Morrison said. Still another good showing mentioned was the 11th place finish in the May 13 district meet, with 33 schools involved.

Bridges, Morrison commented, "We can't forget that we had the third best pole vaulter in the state meet at Champaign."

Always looking to new material, Morrison isn't disappointed about losing his fine seniors to the cap and gown brigade. These include hurdler Larry Anderson, dashman Leonard Reville, John Bohnenstiel, who tied the school record in the 880-yard dash, Mike Kayard, this year, Miller Jim Stephens, weightlifter Jim Parker and Willis Farless, and Bridges.

The remaining crop of this year's Warriors includes:

## CARROTS AND CARATS

WANT A DIFFERENCE?

You can tell how good a carrot is by looking at it. Failing that you can taste it. Even so, the most you could lose is a few cents even if your carrots were far inferior to your estimate. Not so with carats... or more plainly, diamonds. Even experts or so-called "appraisers" sometimes make mistakes. Best way to buy diamonds is to spend most of your efforts picking the jeweler. That saves a lot of time and guesswork. Here? Just pick the jeweler who has a solid reputation for value and gives an absolute guarantee of satisfaction. The rest follows naturally. You can't miss.

## Schools Name Sanders Audio-Visual Director

The Granite City school board on Saturday afternoon approved the appointment by Supr. Russell D. Johnson of Carroll E. Sanders, 2064 Iowa street, to a new position of audio-visual program director.

To be employed nine and a half months a year, Sanders will be released from all industrial arts class assignments at the high school and will be placed on the salary schedule at 113% for the first year, increasing 1% a year to 118% at the sixth year.

Sanders has been serving as audio-visual coordinator, and attended a national audio-visual conference in San Diego, Calif., this spring.

Financial Principal Dale Rea is to be utilized for two weeks again this summer in preparing reports for National Defense Education Act Funds.

Seek Art Program Grant  
Administrative Assistant Bob J. Davis was authorized to submit an application for federal funds under the National Foundation on the Arts and the Humanities act of 1965.

The Granite City district has been asked by the state to plan an art appreciation and art history program for kindergarten through the twelfth grade, and the grant would finance visual aids, prints and other materials. It is proposed to spend \$1129, of which the U. S. will provide 25% (probably 50% in future years).

Notification was received that the Appellate Court has ruled 2-1, with Judge George Moran dissenting, in favor of the school system in its decision several years ago not to place Harry Wade on teaching tenure. While no official notice has been received on the U. S. Supreme Court's refusal to hear the Madison county railroad tax objection appeal, it was noted during a board discussion that the case apparently now is "dead."

## Secretary Hiring Policy

There will be separate secretarial and clerical lists.

Training, successful past working experience, and ability to work cooperatively and effectively with other personnel will be the primary considerations. All things being equal, among two or more candidates, selections will be based on the date of application.

## 8 Miss GC Contestants Attend Sunday's Party

Miss Kathy Oros, who shortly will celebrate her eighteenth birthday, greeted potential candidates for the Jaycees' event at the party given Sunday afternoon at the First Granite City National Bank.

Eight prospective contestants who attended the affair, several accompanied by their parents, heard Dr. E. L. Strobel, president of the Jaycees, and Edward Gowen, pageant entries requirements and contest rules.

Darrell Crews, general chairman for the 1966 Miss Granite City Pageant, introduced the contestants and James Burton, Jaycees president, welcomed the contestants.

## Madison Jubilee

al lighting and sound, with an especially-written script, "The Madison Story." It promises to be one of the most exciting productions ever held in this area.

Hulse has many years of experience in the theatrical and management fields. He counts among his credits duties as assistant director of "Custer's Last Stand" on the Crow reservation, a 20th Century-Fox film production. He was not far from this area last year, when he staged "Our First Hundred Years" in St. Olve.

He is writing a book, "So You Want to be a Director," has an interest in United Fox Productions and has worked with such greats as Sophie Tucker, Michael "Little Joe" Landon, Rick Skelton and Johnny Ringo.

Last year, he had the famous Sally Rand (bathers and all) in one of his productions.

He is inviting Quad-Cityans to "stop by and get acquainted" at the jubilee headquarters, Fourth street and Madison avenue.

"Who knows? I may put them in the production. They won't necessarily reach stardom, but they should have a lot of fun," he concluded.

Missouri Pacific would appear to be barred because of its large debt. The North Western was rejected by the American Railway Engineering Association as "unacceptable for present day conditions."

In all, McGovern introduced a list of 71 "errors" in the economy and engineering study, ranging from \$20 to more than \$400,000. The list was compiled by the Arthur Andersen & Co. accounting firm. McGovern cited earlier questioning on "miscellaneous" of over \$10 million.

"How to Hurt a Fellow" was the title of a Thursday afternoon session at the Madison Post Office Department, representing the regional Post Office Department. Identity of the hearing officer, Eugene C. Noud, 39, of Collinsville, is charged in a complaint filed by Madison Acting Postmaster W. F. Clinton with giving false and erroneous information to newspapers last January when Noud complained that appointment of Richard Lux, a three-year postal employee, as assistant postmaster was the result of Madison city politics and not based on seniority or merit. Lux is the son of Madison City Clerk Percy Lux.

At the same time, Noud, who is president of Madison branch 331 of the National Association of Letter Carriers, registered a complaint with the U. S. Post Office Department that the appointment of Lux was made of three local applicants for the job with more than 20 years postal experience each.

Noud's answer to the complaint was rejected by Clinton earlier in February. The Madison action was appealed by Noud to the regional Post Office Department at Chicago that notified him a hearing had been set. Noud said that if the ruling, expected in ten days, is against him, he will appeal the case to the U. S. Post Office Department at Washington, the final level of appeal action.

## Janice Lee Rudd, Dennis Davis Are Wed in Iowa

An out-of-town wedding of interest to local residents was that of Miss Janice Lee Rudd, daughter of Mr. and Mrs. Orville Lee Rudd Jr., 534 Kenworthy drive, Ankeny, Ia., former residents of Madison, and Dennis Edwin Davis, Des Moines, Ia., Saturday afternoon at 5:30. The vows were exchanged at St. George's Greek Orthodox Church in Des Moines.

Rev. Alexander George of Cedar Rapids officiated at the double ring ceremony.

The responses were sung by members of the local choir of the Nativity of Virgin Mary Eastern Orthodox Church, Madison, of which the bride has been a member. The choir was directed by Mrs. John Tanase, the bride's aunt. The Epistle was read by John Dutko, the bride's uncle.

Mr. Rudd gave his daughter in marriage. She was attired in a gown of gardenia white silk organza designed with a fitted bodice with brief sleeves. Pearls and crystals in a flower design embroidered the bodice and were repeated on the controlled skirt, which swept into a full court train.

A full-length veil of silk illusionism was worn with an over veil of Brussels lace in Madonna fashion. The bride carried white roses and agapanthus entwined with ivy. Bouquets of white spider mums decorated the altar of the church.

Mrs. William Pereira of Mill Valley, Calif., the former Miss Elaine Tanase and the bride's cousin, was matron of honor, with Miss Jean Van Cleve and Miss Debbie Davis, the bridegroom's sister, as bridesmaids.

The bridesmaids were gowned alike in white elysee lace over periwinkle blue taffeta. The bodices were fashioned with empire waistlines, with scooped necklines and brief sleeves. The skirts were floor-length sheath with periwinkle blue shashes draped to the hemlines.

They were matching white lace Dutch hats over periwinkle blue taffeta and carried bouquets of white roses.

The matron of honor was dressed like the other attendants with the exception of her flowers, which were blue agapanthus in Des Moines.

Marvin Rooney was best man, serving with Dick Fisher and Dan Dura, groomsmen, and Keith Rudé, the bride's brother. Terry Dutko, the bride's cousin, and Mark Wagner were the ushers.

Mrs. Rudd, mother of the bride, wore a fitted bodice and side-draped stole ending at the hemline. She had matching accessories, white gloves and a corsage of pink roses.

Mrs. Davis, mother of the bride, was attired in an orchid gown, with a fitted bodice and matching accessories, white gloves and a corsage of white orchids.

The reception was held in Ankeny, Ia., with approximately 300 attending. The couple will reside in Des Moines.

The bride is a graduate of Ankeny high school and attended Cedar Rapids, Ia.

The groom is a graduate of Drake University, Des Moines, and is affiliated with Sigma Phi Epsilon fraternity.

Among the local residents attending were Mr. and Mrs. John Tanase, Mr. and Mrs. John Dutko and Mr. and Mrs. Terry Dutko.

The bridegroom's sister, Mrs. Mary Knipping of Edwardsville, Mo., and Mrs. Ted Norakas of St. Louis, Mo., and Mrs. Steve Kopsky and daughter, Jane, Jim Wilks, and Mr. and Mrs. John Ellen, of St. Louis, and Mr. and Mrs. Walter Spier and daughter, Judy, of Cahokia.

## CONCERN BY MANY HELPED CHANGE RIGHT-OF-WAY

To the Editor:

This is a letter of appreciation to Alderman Walter Norn of the Fifth Ward and all the Aldermen from the other wards, the gentlemen from the Chamber of Commerce, the Port Authority and the Press-Record who have shown their concern and leadership.

They showed us the courtesy and used their time to investigate the Route 151 problem that had been causing property complications along the right-of-way in the Fifth Ward.

All of these men, excluding the mayor and three or four Aldermen, gave us the time courtesy of coming to our home to see what a problem the state caused us with their indiscriminate surveying and taking of property.

In some instances, the right-of-way line is within two feet of the houses.

Anyone knows that this frontage road would not have been approved if it had been an unreasonable request. And no taxpayer in Granite City would have wanted to change places with us if they took the time to check the facts.

The mayor didn't even think it important at all; his press release said it was a petty grievance. But I think that because the highway isn't going through his lot.

Consider now, if you will, an express highway and right-of-way line two feet from your bedroom, the level of the highway four feet above your yard level, and a ditch for highway drainage at the edge of your property. Would you complain to your city officials?

This is the problem that these Aldermen, the Port Authority and Chamber of Commerce cleared up, and I might add, which some of the Aldermen are getting some bitter phone calls about.

But we in West Granite know these men have done a good job in getting this frontage road. And I'll bet that in the near future, all of Granite City will be glad it's here—no thanks to Don Partney.

## THANKS FROM FAMILY AFFECTED BY HIGHWAY

To the Editor:

"Thanks." There isn't another word in the dictionary that says as much to show our feelings toward Alderman Walter Norn, the other ten Aldermen, Chamber of Commerce, Port Authority and Press-Record staff who helped us solve the problem we had with the Great River Road.

These men have not granted this frontage road through just talk. They visited our homes and saw where the highway stakes were, and also heard of the hardships and injustice the state was imposing on us.

All we asked for was justice and the Americans' Right to live. We hope Don Partney and the Aldermen who opposed the frontage road have seen that with a little effort and time even that "small minority" who would suffer severely can be helped.

If more of our public officials would take the time to see what the people are talking about, and would really work for the people of our city, we would all have a better place in which to live.

Give us more men like these Aldermen who take the time to show they have a heart instead of being a machine. We say again, "Thanks."

To the people who thought we were so wrong, we have only to say: "Get down on your knees and thank God because, but for the grace of God, it could have been you."

Our personal troubles are far from over; the hard part now begins. Everybody is proud to be son Part's rose garden; well, we are proud of our little park we have for a yard. We will lose all the roses, fruit trees and shrubs we planted after waiting so long to see them grow to their full beauty.

We hope the new appraiser will take into consideration what we are giving up and the damages to the rest of our home.

## NOTIFICATION POLICY ON CASUALTIES EXPLAINED

To the Editor:

In a recent letter to your newspaper, it was stated that the notifications to the next of kin of military personnel were made by telegrams delivered by the military. I would like to take this opportunity to explain the current United States Army policy for conveying such news.

First, permit me to reemphasize. I was stationed at this Depot during the latter part of World War II. Some local families received notification by telegram

that their soldier sons or husbands were injured or had died in the service of their country.

However, I know from personal experience that Depot officers shared the responsibility of notifying families of wounded, missing, or deceased soldiers. We also offered to assist the next of kin in any way that we could.

One such incident indelibly inscribed in my memory is a poignant visit I made to a Lincoln Place family whose son was killed in action. I can assure everyone that the United States Army has made and is making every effort to insure that the next of kin is notified in as gentle and dignified a manner as possible.

Beginning March 1, 1966, the Fifth U. S. Army Area, which includes the state of Illinois, began a test to determine whether or not a system of person-to-person contact with the primary next of kin (wife, child, or parent if the soldier was not married) was feasible.

I can think of only one time the Department of the Army did not use the procedure being tested and, in that particular instance, the test procedure had been in effect for a few days.

Effective March 15, 1966, the Fifth U. S. Army test was adopted as the United States Army-wide policy.

When the Depot receives instructions from the Department of the Army to notify the next of kin of a local soldier who has died, an officer is immediately assigned. This officer visits the family without delay.

Personal notification, in most cases, is understandable. It is the hours of six in the morning to ten at night.

In specific cases, though, when there is a possibility that the family might receive the sad message from a source other than the United States Army, such as the Aldermen, it is tactically sound as possible. This means that all efforts are to be made for a personal notification.

However, if this is not possible, then and only then will the Army representative telephone or wire the primary next of kin.

Once the concerned individual is contacted, the Department of the Army will send telegrams to the secondary next of kin, usually parents of a married soldier, brother or sister of an unmarried soldier, grown children, etc.

I might point out here that shortly after a man joins the Army, he is asked to designate who his primary next of kin is and also secondary relatives to be notified in the event of an emergency.

Since the first of this year, we here at the Depot have been directed to notify the next of kin of four cases where a local soldier died in South Vietnam. About a year ago, we as a secondary next of kin had been notified their son had died at an Army post here in the states.

In each of the four cases, an officer was designated to visit the family immediately to inform them of the death. The responsible officer then worked closely with the family. He assisted in completing funeral arrangements, and requested (color guard, pallbearers, firing squad, bugles).

We also helped the next of kin thoroughly understand all financial entitlements and then aided in the processing of necessary documents to see that these were secured (gratuity pay, federal and commercial life insurance, back pay and combat earnings, interment allowances, state of Illinois benefits to a veteran's survivor, as well as social security and Veterans Administration benefits).

It goes without saying that the responsible officer performed these duties with the greatest of kindness dictated by the individual situation.

The actions of one of our lieutenants assigned should, as far as we are concerned, be designated as an example for emulation by other officers who are designated to perform under similar circumstances. This young officer conscientiously worked during his duty hours, and during a great deal of his non-duty time, with the members of the surviving family of the deceased soldier.

I have had the sad task of officially presenting posthumous Purple Hearts to a young wife and to the parents of local Army members killed while serving in Vietnam. All of us of course, sincerely hope that the need for future assignments such as I have described will be rare ones indeed.

Concur with Mrs. Caudle's suggestion that some memorial should be erected in Granite City to honor those men and women who have died in the armed forces.

They gave their lives so that we may continue to enjoy the benefits of a democratic society. For that, we should all be thankful and remember them in an appropriate manner.

## Full Speed Ahead on Extending River Road Through Granite City

Unanimous Granite City council approval of a working agreement with the state on construction of Federal Aid Route 151 puts the city solidly on record as favoring rapid progress on the riverfront highway through Granite City.

This is as it should be, since the highway can mean much to this community in terms of residential, commercial and industrial growth.

This year's phase of the southward extension of Route 151 is of particular importance to Gov. Kerner and the Illinois Division of Highways have pledged allocation of \$1,130,000 in 1966 for right-of-way acquisition, 3.8 miles of grading and the overpass at the Illinois Terminal Railroad tracks serving the harbor area.

The later paving work also will be important, since it will improve port access, ease auto congestion on streets, serve as a convenient new traffic route and provide additional access to and from the Quad-Cities, stimulating economic expansion.

But the progress that can be made in 1966, even though not including final completion of the highway, should be minimized. The grading work and overpass will provide tangible evidence that the riverfront road soon will be a reality. And this can be of great help to the Tri-City Regional Port District in proceeding with its plans for the improvements designed to expand local shipping activity.

Most important, the sooner each phase of the highway is achieved, the sooner the next section can be built. This means earlier extension to and through Venice as well as Granite City, bringing the diverse benefits of the long-sought highway to all portions of the Quad-Cities.

## New Riverboat Era in Venice

Quad-Cityans with Venetian wells in their current efforts to put their city "on the map" again in waterway usage.

If current plans work out, a river excursion planned for June 18 will be only the first in a long series of such events, and the Venice riverfront can once more become the scene of frequent recreational activity.

Steamboats once paid regular calls to the

## Staff Services Aid Legislators

(Additional recommendations of the "State Legislators in American Politics" study group, the 25th American Assembly, held April 28-May 1 at Arden House, Harriman, N. Y.)

In addition to the 12 proposals previously listed (May 16 issue), upon legislators should provide varied staff services plus central services, the latter including bill drafting, law revision, legislative library and reference services.

Such central services should be staffed by professional personnel and be on a permanent non-partisan basis.

By providing these staffs, the legislative branch will improve its ability to conduct programs, undertake research, exercise oversight, analyze and evaluate the executive budget, conduct effective post-audit, and interpret and communicate its activities.

Legislatures should not encroach upon the responsibilities of the executive branch.

Executive recommendations include:

1. State legislators should be provided adequate offices and equipment in the state capital and, where appropriate, in home districts.

In addition, legislative committees should be properly housed. Especially those with important year-round responsibilities should be properly housed.

2. State legislators should utilize a strong system of legislative assistants, which should extend to the activities of lobbyists.

3. Vigorous party organizations should be encouraged within a state and its legislature. Well organized majority and opposition parties contribute to effective and responsible legislative performance.

4. Organization of the legislature should be on a bipartisan basis. Two-party states, and the majority party should elect all officers except the officers and leaders of the minority party.

Venice landing, and there were numerous showboat performances here. Long before bridges were built, Venice was a major crossing point. With plans for frequent piers and cruises, and with the state and local levee district cooperating to improve both the facilities and the attractiveness of the area, it may be possible to recapture much of the oldtime flavor of the "riverboat days."

## Modernization of State Legislature Procedural Rules Is Long Overdue

Recommended state legislative changes, listed on this page May 26 with a concluding segment today, offer much food for thought and deserve serious study by Illinois officials and citizens. They stem from a detailed study of state problems by a panel of legislators, local-level government officials, former governors, journalists, civic leaders and educators.

Some of the proposals are "eye openers," such as the plan to end all constitutional limits on taxing power, instead relying on statutory restrictions only. Others undoubtedly would have strong public support but for various reasons have not yet been adopted in most states. Still others involve modernized procedures, such as the committee system for legislation in Illinois. Some are directed at such ills as interest conflicts and bribery.

Basic changes in government are understandably hard to achieve. Time and time again, voters of Illinois and other states have defeated constitutional revision.

But the future course of state legislatures is such an integral part of the future of every American, for good or bad, that an all-out effort to update their operating rules would seem well worth the time required.

## Rink, Recreation Center Costlier—But Worth It

Voters recognized the importance of an ice skating rink and recreation center to this community by an overwhelming margin in the special election last December. Undoubtedly they support Granite City park district efforts to salvage the project despite unexpectedly high bids.

Usual procedure followed in such cases is to delete any "frills" in the specifications to get closer to the estimated cost, then to add to the latter could be done through an allocation from operating funds, or through gradual financing over a period of years, as in the purchase of Worthen Park.

It is unfortunate that the rink and center will be costlier than had been hoped, but there is a clear mandate to proceed. The unique design, which probably contributed to the above-estimate, but also added much to the attractiveness of the structure and will help make it a widely-used center for recreation, social and civic events and athletic competition and exhibitions.

Even with a higher initial cost than expected, the rink and center will be a real bargain because of the adaptability to a large variety of activities throughout the year.

COMMUNIST BOOKLETS STUDIED BY SCHOLARS

Washington, D. C.—The following booklets have been studied by the Department of State:

1. The Pakistan-India dispute over Kashmir.  
2. Apartheid.  
3. The Jordan-Israel dispute over the natural resources of the area.  
4. The United States' involvement in Vietnam.

Dear Miss T.: In the United Nations, Bulgaria closely follows the lead of the USSR and rarely deviates from the foreign policy line of this country, the dispute over Kashmir.

Dear Senator R.: I let us assure you that we have no illusions about the character of the Chinese or other Communist.

Nevertheless, we feel that it is essential that the United States foreign policy to study Peking's statements and intentions.

Many universities in the United States have completed voluminous research on many aspects of Communist China for the Department of State, the Department of Defense, and for other organizations.

Scholars would not have been able to carry out this research without the pertinent documents and papers.

We have been able to obtain relatively scarce news items from Communist magazines and other papers through our current policy of permitting them to be published in the United States.

The sample you sent us carried a mark indicating that it was not to be included in the Department of Justice as required by law.

## Neutron Serves as Atomic Bullet

(American Institute of Physics)

A staunch middle-of-the-road, the neutron refuses to take a positive or a negative position—electrically speaking. Unlike its nuclear twin, the positively charged proton, the neutron has stubbornly resisted the efforts of physicists to make a dent in its neutrality.

Discovered in 1932 by James Chadwick in England, the neutron is one of the two basic building blocks of the atomic nucleus. As its name implies, it is electrically neutral. As such it has been used as an atomic bullet to investigate important nuclear matters.

It is a good bullet because it is unaffected by the overall positive charge of the nucleus or the electric forces of the protons.

How Neutral Is Neutral? But there is neutrality and neutrality. Kenneth W. Billman, Clifford G. Shull and F. A. Wedg-

wood of the Massachusetts Institute of Technology wanted to determine just how neutral a neutron is.

"Aside from being of interest in understanding the constitution of matter, the knowledge of the (possible neutron) charge would help to explain the astronomical observations which indicate that the universe is expanding and even help to understand the magnetic characteristics of the earth," they explained.

The group's strategy was to generate a beam of slow neutrons and pass them through an electric field which would deflect them from their path if they possessed even a minute electric charge.

Twenty-million neutrons later, not a one had strayed.

The conclusion was that if the neutron does have some charge, it is less than a millionth of a millionth of a millionth of that of the proton.

"My Crowd," composed of several married couples of Granite City and organized three years ago for social purposes, enjoyed its third annual outing since the club was organized.

The group met at Water Works park on the Mississippi River for a picnic. The picnic featured a monster pig roast, prepared and served at the noon hour.

Many other delicious edibles, including beans, which were used to stuff the pig, had a tendency to lessen the athletic tendency of the participants for several hours following the repast.

Manley Cox, who had won the championship eating medal for two years, was again awarded the medal, and now claims it as his permanent property.

Those who enjoyed the outing were Messrs. and Mesdames Manley Cox, "Snooter" McClean, Breeze White, Everett Corzine and Tony Schmidt, and Miss Cecilia Branch and Edward Anderson.

The party went out in two large rigs belonging to Ed Williams, Pinocchio, rum, football and other sports were enjoyed by the crowd, all of whom returned home about 6 o'clock.

The patriotic youth who intends the county will attend.

## Optimists Give GC Police Film on Law Enforcement

Behind the scene glimpses into law enforcement operations seldom reaching the public eye are described in a new movie, "Every Day, Every Hour," which was presented Thursday by the Granite City Optimist Club to the local police department. The 30-minute documentary was previewed at the Optimist's luncheon at the YMCA.

More than 30 civic leaders, including the Royal Canadian Mounted Police, and other distinguished guests joined with 35 Optimist members in viewing the educational film. Produced by the National Police Association, in cooperation with various police agencies, including the Royal Canadian Mounted Police, the movie was purchased by the service group at a cost of \$200.

In accepting the film, Police Chief Raymond Willard told club members, "This is a fine film, and we certainly can put it to good use. We will be glad to show it to any church, school, service or civic organization, emphasizing the importance of the individual citizen's responsibility in providing good law enforcement."

The Granite City Optimist Club arranged to obtain the film as part of their "Respect for Law" program, a nationwide project of Optimist International.

## Beer-Drinking Youths Cause Row at Theater

A disturbance at the Bel-Air driving theater involving broken beer bottles Thursday night resulted in two Granite City youths, both 16, Collinsville, an attendant at the theater, attempted to stop a group of youths in an auto from breaking the bottles and discarding them in the parking area.

He said they became belligerent and surrounded him. As he fled, he was struck on the arm by a broken beer bottle and suffered a cut.

One of the youths was identified as a former employee at the theater. He later contacted the sheriff's office after his father was informed of the disturbance.

He said the attendant struck him with a flashlight and then started to run. He told authorities that his group had purchased a case of beer and drank it at the theater. He said he had forgotten where they obtained the beer, and refused to identify his companions, nor wishing them to get into trouble. No charges were filed.

Hectic Debates

The list of applicants prepared by the Personnel committee, they were not rated as the most qualified.

Moerlein stressed that urgency was needed in hiring the two operators, and that both men named could start on June 1. Sternberg commented that one of the two men could be drafted into the armed forces in the near future.

The sharp exchange between Rutledge and Moerlein resulted as Rutledge said he had been told by Moerlein that the recommendation of the Personnel committee, made two weeks ago, was rejected by the council not as a vote against the man named for a treatment plant job, but as a vote against the mayor.

As Moerlein denied the allegation, Rutledge said that Moerlein had told him all appointments should be political.

As Alderman Moerlein continued to protest, Fry intervened to say the Personnel committee had worked with the sewage treatment plant superintendent in developing a list of qualified persons based on education and experience and that the recommendations being made by the council were not at the top of the list.

Dallas said that as long as the men were on the list as being qualified, the Personnel committee should not object. Basarich added, "Everyone up here plays politics, and naturally we're going to support the people of our wards for city jobs."

Moerlein remarked that all applicants for the two jobs on a treatment plant operators were placed on a list and that the listing did not necessarily indicate the men were qualified.

Mayor's Stand

Mayor Parnley explained the Personnel committee was assigned to "get city hirings out of politics and to get qualified people into city jobs. The members have cause of question in their own minds and are making the best possible recommendations to the council."

"They have placed ads in papers to get applicants and then interviewed the people to determine who is best qualified," he explained.

Moerlein reiterated that the two men selected for the jobs

He indicated he would not push further for approval of the resolution which would create the new committee. It also provided for five ex-officio members — the mayor, the comptroller, the superintendent of streets, the superintendent of the treatment plant and the consulting engineer.

Weeds "Thigh High"

In further committee action, Alderman Parnley, chairman of the new Quirk Park committee, reported that wood pellets put out at the old East Granite cemetery near Kirkpatrick Homes had failed to work and that weeds now are "thigh high."

He recommended the city inspector confer with the salesman on a refund of the several hundred dollars paid for the pellets.

Nono pointed out the new Quirk Park committee had never been created by ordinance although appointed by the mayor earlier this month. Parnley asked that an ordinance be passed.

Council members also debated the proposed negotiations for a franchise with the water company. Moerlein commented he still had no answer to his request for the assistant city attorney to determine if the city can charge a utility without a franchise up to \$100 a day for use of city streets.
